## About ASIS

The Australian Secret Intelligence Service (ASIS) is Australia's overseas intelligence collection agency. We are Australia's experts at collecting highly sensitive information – secret intelligence – from sources overseas to keep Australia and our region safe and prosperous.

Our work spans continents and cultures. As a tech-powered and data-driven organisation, we use covert techniques and cutting-edge technology to put us in the right rooms, next to the right people, with the right access to the intelligence we need. We are tasked to collect intelligence – it might be political, military or economic information – deliberately withheld from the Australian Government that might present threats to or opportunities for Australia.

From graduates to career changers, we come from every corner of the country and all walks of life, with backgrounds from all around the world.

Regardless of our ethnicity, experiences and education, we're bound by a shared commitment to something bigger: building a better future for those who come after us. We seek to reflect the community we serve, and welcome applications from Aboriginal and Torres Strait Islander peoples, women, people with a disability, neurodiverse, people from culturally and linguistically diverse backgrounds and those who identify as LGBTQIA+.

It's a mission owned by everyone, with opportunities for all.

## The role

The Director roles in Technology Capability Planning and Coordination (TCP) deliver strategic direction and decision support for the Technology Solutions Division (TSD). The Directors align project and program investments to maximise value and achieve business goals, while managing resources and risks. The Directors enhance stakeholder engagement and coordinates initiative delivery. The Directors also oversee ASIS technology equities and drive the adoption of new and emerging technologies into our strategic planning.

## Role responsibilities

Key responsibilities include:

- Lead and manage a section within a dynamic and fast-paced environment, ensuring high levels of performance and productivity.
- Coordinate and prioritise workloads to meet deadlines and respond to changing demands.
- Foster a culture of continuous improvement and innovation.
- Develop and coordinate briefs for senior management and stakeholders, ensuring they are accurate, concise, and tailored to the audience.
- Foster a collaborative and inclusive team environment that values diversity and promotes work-life balance.
- Build and maintain strong relationships with internal and external stakeholders, including other government agencies and partners.
- Represent the section in meetings and forums, advocating for its interests and contributing to broader organisational goals.

## Core skills

We encourage applicants with the following skills and attributes to apply:

- Demonstrated experience in leading and managing teams in fast-paced environments.
- Strong knowledge of technology equities.
- Excellent briefing and presentation skills, with the ability to communicate complex information clearly and concisely.
- Stakeholder engagement and relationship-building abilities.

- Sound judgment and decision-making skills, with a focus on risk management.
- Ability to work collaboratively and effectively within a team and across organisational boundaries.

## Benefits of working at ASIS

ASIS employees enjoy access to generous workplace terms and conditions. Benefits include but are not limited to:

- Competitive salary plus 15.4% superannuation
- A variety of leave options including 22 days paid annual leave per year
- Paid leave between Christmas and New Year
- Domestic Relocation assistance for new staff to Canberra
- Health and wellbeing initiatives
- Salary packaging arrangements
- Learning and development opportunities including access to study assistance
- A variety of support services including but not limited to Employee Assistance Program (EAP) and a Staff and Family Support Office.
